Professional Summary

I have applied for a Deck Cadetship because I thrive off of adventure and I believe that being in the Merchant Navy is the perfect way to see the world whilst pursuing an interesting and challenging career. I am a recent graduate from the University of Strathclyde with a bachelor's degree in Computer Science. I am currently working as a software engineer at a small education technology company developing online courses. Whilst my degree has provided me with some invaluable skills, I do not want to work at a desk for the rest of my life and I think joining as a Deck Cadet will let me use my skills in a fulfilling way.

Employment History

MAY 2020 - PRESENT	Klik2Learn <i>Software Developer</i> <ul style="list-style-type: none">• Designing and developing online English courses for ESOL learners using the latest technology like React and PHP.• Liaising with the graphic design team and content production team to ensure that the product being developed meets the specification.• Adhere to strict standards to ensure that all documentation and code can be easily worked on by other members of the team.• Test all possible use cases for a piece of software to ensure the best experience for an end user.
